

Pentàgon regular

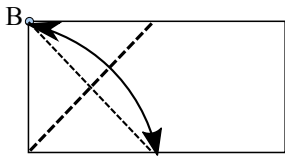

Partim d'un quadrat.

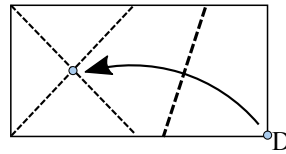

Pleguem per la meitat.

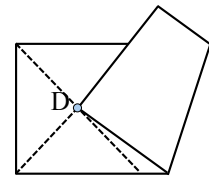

Portem el vèrtex A al costat superior.

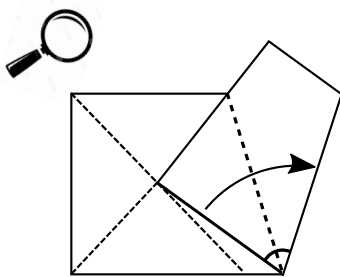

I el vèrtex B a l'inferior.

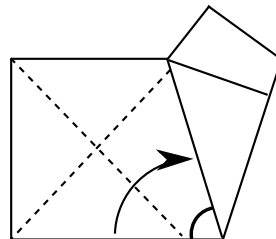

Portem el vèrtex D a la intersecció dels plecs anteriors.

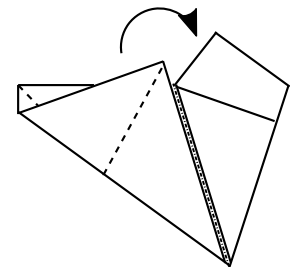

Ens queda així.

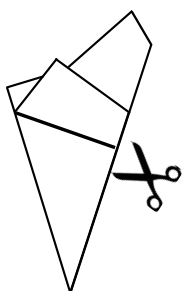

Pleguem per la bisectriu de l'angle marcat.

Fem la bisectriu d'aquest altre angle.

Fem un plec de cim per la línia marcada.

Tallem per la línia marcada i despleguem.
