Objectius

.Learn about different cultures and places in the world in order to be able to organise a trip taking into account all the things involved, working in cooperative groups.

.Learn how to communicate in a comercial situation.

Descripció de la proposta

The students will be involved in a trip design as if they were a tourist agency. That means taking into account all the parts involved in a trip from the tourist agency point of view. Students will end up role-playing in cooperative work. Each group of three students will represent a situation in which two people are willing to do a trip where one tourist agent tells them the best option. This project is a result of a GEP1 project.

Aspectes didàctics i metodològics

These two sessions are based on a CLIL approach. Students are presented with multimodal and varied input (spoken, written, visual, hands-on...) The input presented is used to help learners understand ideas and construct meaning and at the right cognitive level and the right language level. It is neither too challenging in terms of content nor too difficult in terms of language. Students are helped in some way to understand and process the input presented. The activities presented cater to multiple intelligences. The students are presented with good questions (explicit, implicit and referential) that help them process input and that challenge them not only to understand, but to think, create. A variety of collaborative learning strategies are used throughout the session

Recursos emprats

.kahoot

. Flashcards organised into diferent categories:

- Customers:Familys, Couples, Backpackers, Volunteers, Singles
