

Together to be friends

Objectius

- .To raise awareness of the similarities and differences between people from different countries.
- .To develop ICT skills by using them in real life.
- .To integrate linguistic skills to communicate our ways of living.

Descripció de la proposta

This is an official eTwinning exchange programme with another European school in Brzeszcze, Poland. In the first part, both Polish and Catalan children researched some relevant information about the other school's country. Following different resources and methodologies, they created some presentations (using various ICT tools) showing several aspects from the Polish culture and sent them to Poland. Both could learn a little bit more about our friends' country. Having received their works, it's time to share them with the children and see which idea our Polish friends have about our country. Our children will explain their friends more concrete aspects about our ways of living. This project is a result of a GEP2 programme.

Aspectes didàctics i metodològics

These 6 sessions are interrelated to a big Society project based on a CLIC approach and focus on a plurilingual view of the language teaching-learning process. The cultural and linguistic diversity of our community makes us take a specific language treatment into account. We apply methodologies, where children clearly increase their exposition to the English language: a competential way of working specific competences.

Recursos emprats

Continguts, competències i processos que es treballen de forma destacada

Social studies:

- . Globalització, diferenciació i alteritat.
- . Organització social.
- . Espai geogràfic.
- . Fases d'una investigació.
- . Sistema físic.
- . Problemes socials rellevants.

English:

- . Estratègies per a l'expressió: planificació, producció i revisió.
- . Textos de tipologies diverses, en diferents formats i suports.
- . Estratègies per a la comprensió. . Fonts d'informació en paper i suport digital.
- . Estratègies per adquirir i transmetre coneixement.
- . Estratègies i recursos per a l'expressió: planificació, producció i revisió.
- . Estructura textual.
- . Estratègies i recursos per a l'elaboració de textos.

Alumnat a qui s'adreça especialment

Catalan Children (6th Primary); Polish Children (5th Primary)

Interdisciplinarietat, transversalitat, relacions amb l'entorn

Society. Social Science
